

Dear FCC,

I am writing concerning the possibility of LPFM taking precedence over my current FM translator station. I listen to K-LOV on 89.5 FM here in Bakersfield, California. I support the style of radio station that K-LOV adheres to. K-LOV is family oriented and we are never offended at any of the broadcasts. My whole family listens to K-LOV every day. K-LOV is an encouraging radio station and we NEED this in our community. Having a family-values-based radio station is a necessity in these rough times. Please help keep K-LOV and other radio stations like it on the air. To do good is a public service and radio stations like K-LOV are promoting good family values. Please help me protect my children from harmful programs by keeping the few safe stations going loud and clear in our areas.

Sincerely yours,

Mrs. Judy Ann Reed
